

Thank you for trusting UT Southwestern Medical Center to meet your healthcare needs. We are grateful for the opportunity to serve you. We believe in the team approach to care and strive to support the most valuable player, which is you! Because of this team approach, UT Southwestern has elected to share certain information with you via MyChart as an option available to you.

UTSWMyCare Mobile App:

Our patient care mobile app – UTSWMyCare – helps you easily manage your health and stay connected to UTSW and your provider, all in a secure and safe environment. With the app, you have 24/7 access to the resources you need to manage your health – all in one place and all accessible with your smartphone. Key features include: find a provider, find a location, shuttle services, campus wayfinding and more. MyChart is also included in the UTSWMyCare app, so all the things you normally do on MyChart can be done through UTSWMyCare, too. Visit www.utswmed.org/mycare to learn more. If you prefer to interact with UTSW through a desktop experience, you can continue to access MyChart through your preferred desktop browser.

Connecting with Your Care Team in MyChart

UT Southwestern's MyChart messaging is a great way to communicate with your care team when questions arise between visits.

Use MyChart for:

- Follow-up after a recent visit
- Minor changes in a chronic condition
- Simple, non-urgent questions (e.g., about medication)
- Doctor's notes for work or school

Do NOT use MyChart for:

- Emergencies (call 911)
- Urgent issues (call your provider)
- New or complex medical concerns (schedule an appointment)

Please allow up to 3 business days for a response.

Test results are now posted immediately in MyChart. You may see them before your provider has reviewed them.

More info: utswmed.org/mychart/#messaging

Help with MyChart: mychart.utsouthwestern.edu or call 214-648-8888.

Privacy Information:

UTSW encourages our patients to review how medical information about you may be used and disclosed, how you can get access to this information, your rights concerning your health information and our responsibilities to protect your health information. Please review the "Notice of Privacy Practices" by requesting a copy from the clinic or viewing on your MyChart homepage.

Please let us know if you have suggestions for how we can serve you better!
